

Student Shadowing

The shadowing program at Southwest Medical Center is for students that may be interested in a health care career. The program offers a one-day shadowing experience per department to anyone who has completed the Medical Explorer Program or thru a college or university that the hospital has an affiliation.

Internship

The internship program is a structured program for those students already enrolled in a college or university that requires internship practical hours in their discipline of study. The hospital has a signed agreement regarding the instruction / goals the intern is to achieve while at the hospital.

Community Service / Volunteers

Southwest Medical Center is proud of our Auxiliary Volunteers and the service they provide the hospital and our patients. To become an Auxiliary member, please see information provided under the Auxiliary Services tab. Unfortunately the hospital is unable to offer any community service hours to student volunteers.
