

# VOICES OF

## Southwest Medical Center

### How long have you worked at SWMC?

I have been working at SWMC going on 6 years in December.

### Tell us a bit about your job.

I am a CNA on the Medical Surgical Floor. I take care of the patient's day-to-day needs, ensuring patients are well-cared for and safe during their hospital stay. I also work as a Ward Clerk assisting the charge nurse with procedures. I gather supplies, document information, and check vital signs.

### What is most rewarding about your job?

The most rewarding part of my job is helping patients get back on track with their day-to-day living. It is so fulfilling to see the difference and impact that you have on someone and the impact they have on you.

### What is one accomplishment, personal &/or professional that you are most proud of & why?

One accomplishment that stands out is that I'm not as shy and quiet as I was when I first started working here. This job has brought me out of my comfort zone in a good way. I enjoy interacting with the staff and patients. That has really brought me out of my shell, and for that, I'm thankful - infinity times 10.
